Thomas C. Martin, Edison Pioneer, Dies in Hospital

Was Secretary of Electric Light Association Since 1909

PITTSFIELD, Mass., May 17.—Thomas Commerford Martin, sixty-seven years old, editor, and one of the Thomas A. Edison pioneers, died this afternoon of pneumonia at the House of Mercy Hospital, where he was brought on Friday from his country place in Worthington.

He was born in London. He was associated with Edison from 1877 to 1879, was editor of "The Electrical World" from 1883 to 1909, and since then has been executive secretary of the National Electric Light Association. In 1907 he was decorated by the French government as an officer of public instruction. Mr. Martin was a member of the Engineering College of George Washington University. He was a member of many electrical and other scientific clubs and societies, and was the author of "The Researches and Writings of Nikola Tesla" and "The Life and Inventions of Edison." He was a frequent contributor to books and magazines.
